FRIDAY, Jan. 19, 1906.

President Roosevelt was initiated into the Improved Order of Red Men in his private office at the White House. He would do better to improve the Order of some of the so-called white men employed as flunkies and secretaries.

Editor Wilson, of the Vaneburg Sun, speaks as though he knew. The Vaneburg Sun, he says, advises to the Sun, but some Vaneburg merchants prefer to advertise in an almanac which goes well, you all know where the almanac goes.

The Department of Agriculture is now undertaking to show the farmers how they can better raise tobacco. What the farmers would prefer would be for Secretary Wilson to show them how to get more than 6 cents for it from the tobacco trust.

Gov. Beckham has recommended to the State Capitol Commission that only a habitable Capitol be erected for the present, leaving the proposed ornamental features to future legislatures. The estimates of the architect are regarded as too high and a general reduction is probable.

By a series of skillful questions, Ollie M. James, of Kentucky, forced a Republican—Henry Cullen Adams, of Wisconsin—to lay at the door of the National Administration responsibility for the defeat of Myron T. Herrick for Governor of Ohio, and the election of Patterson, the Democratic candidate.

We can foam all we care to about the "Beckham Machine," but we have the nerve to admit that we wish we had one that would run as smoothly and as successfully. It is ball-bearing all around, and glides along the way as a phantom springs from hilltop to vale, while our old wagon hits every stone in the pike and jolts like the devil.—Grayson Tribune.

Representative Hughes, who is one of the strongest men in the West Virginia delegation, has introduced several bills which may be acted upon and if they are, will bring him more or less prominently before the public. One of these is to prevent bribery in elections, and is designed to carry out the recommendation of the "ident in his message on the subject. On all sides it is agreed that Mr. Hughes has drafted an excellent bill for the correction of these evils.—Ceresco Advance.

"Inquirer of recent date has the following of local interest:

Colonel Jay H. Northrup, the lumber magnate of Louisville, Ky., a veteran officer of the Civil War on the Union side, is at the Emory, Colonel Northrup provided over the convention that first nominated Judge Thomas T. Payne for Congress, at May 20, 1892, and he is proud at his protest will be declared United States Senator at Frankfort to-day. "Judge Payne is an able upright man, who has grown up to the full requirements of every position he has ever held," remarked the Colonel, "and he will make his mark in the Senate now and then."

The McKnight measure proposes relief for the Nineteenth and Twentieth districts, presided over by Judge Harbison and Kinler, by taking from the first named the counties of Lewis and Greenup, and from the second the county of Boyd. Judge Kinler and his home county of Boyd, away from the other counties in his district, now formed, Elliott Morgan, Lawrence and Carter. This old district it designates as the Thirty-second.

There is, of course, something of a stir in the work of redistricting. McKnight measure would make thirty democratic districts and one Boyd-Greenup-Lewis district. Judge Kinler and Attorney J. W. M. Stewart, of Ashland, are looking after the proposed legislation. Judge Kinler is blamed for objecting being placed in a largely Republican district. Senator Watson, of the Boyd senatorial district, is working with them. It has been suggested that the county of Carter, instead of Boyd, be taken from Judge Kinler's present district, and placed with the committee of the House in the new few days.

## It Quiets the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, and heals. Sold for 60 years.

Ayer's Cherry Pectoral has been a regular cure for whooping cough, and I feel that I can say this with confidence.

WILLIAM H. TUTT, West.

Senator Henry George is after the express companies, as he thinks they have been charging exorbitant rates in this State. He introduced a bill in the Senate to regulate the charges and to place said companies under control in the State Railroad Commission on the same footing as railroads now are. And to this the people of the entire State say amen. Corporations are said to be soul-less, and most of them are, but the express companies cannot be said to be bloodless, for they have sucked the blood of the people, in these many years.

Two constitutional amendments have already been proposed in the Legislature, one, adding a fourth qualification for a voter, and the other providing for taxes on income, license or franchises.

Under the present statutes, bills and insane persons, persons in prison at the time of election and persons resting under conviction of crime are the only ones disqualified from voting. Representative H. Kirby Bourne has introduced a bill requiring voters to pay their taxes for the year next preceding the year they seek to exercise the right to suffrage. This will reach those who do not pay the poll tax of \$1.50, and the tax register will operate as a registration book, and do away with the necessity for a registration of voters.

Mr. Bourne has estimated that in each average county there are from 600 to 1,000 such voters, in the whole State the amounting aggregate of from 11,000 to 115,000 voters who pay no poll tax. In some counties the revenue from a poll tax so imposed would build a mile or more of turnpike.

### Why These Thirty-Second Districts.

Those who groped their way through the 140 odd bills published yesterday, may have wondered somewhat at the numerous bills seeking to create the Thirty-second judicial district. This is the reason: It is provided that there shall be one district for each 60,000 inhabitants of the State. According to the last census, there were just about enough people in the State to give Kentucky thirty-two districts.

The man who is lucky enough to get away first in the free-for-all "ramble" to put bills through, is the man who will, in all likelihood land his new district. The competition will be very keen, and the struggle somewhat animated. It is possible that in some of the districts where it is sought to create a new one, some objection will be raised which, of course, will add to the gravity of the occasion.

## OUR NEIGHBORS.

Cyrus Cartwright has been appointed post-master at Tongs, Greenup county.

J. Mont Bevins, who has been one of the bustling merchants of Pike county, made an assignment for the benefit of his creditors, Saturday.

Mrs. Elizabeth Artist, mother of Sheriff Patrick Artist and Marshal Joshua Artist, of Russell, is dead at her home south of Greenup, at the age of seventy-nine.

George Vincent's blood-bounds were taken to Morehead Saturday to trial a horn-burner. The deed trailed about four miles and "tread" a woman hid behind a door. These does never fail with half a show.

Representative Hughes, of Huntington, has introduced a bill which carries an appropriation for a survey of the Guyandotte river, with the ultimate purpose of improving the river with locks and dams.

Sulphurville, Ky., Jan. 10.—Alex. Fannin was found to be insane by a Magoffin county jury and was ordered, to the Eastern Kentucky Lunatic Asylum to-day. He received a blow on the head several months ago.

Ironton, O., Jan. 12.—William E. Gregory was brought here to-day from Banner, Ky., where he was arrested on the charge of setting fire to his restaurant at Manchester, Adams county, Ohio, which resulted in the destruction of eighteen business stores in that village two weeks ago.

Quite a serious cutting affair occurred at the new brick yards last Monday afternoon. Andy Bartle, a youth of about 18, had some words with some other boys and was thrown to the ground when Lawrence Johnson, a young tough rushed up from behind and plunged a knife into the fallen lad in the left side near the heart.

—Olive Hill Times.

The Cynthiana waterworks, owned and operated by the city, hold a total of \$600 over and above all expenses last year, and the people were charged with water at rates from one-third to one-half less than rates charged in cities of like class where the water plants are controlled by private individuals or corporations.

In addition, Cynthiana's fire protection did not cost a cent.

The steamer Cando, a Kentucky river packet, was rescued by the life-savers, as she was in a dangerous position near the falls. Ropes were stretched from the boat to a coal pier at the foot of Sixth street.

The boat was disabled by the bursting of a steamship. The damage was repaired in about four hours and she left on the trip up the Kentucky river to Monterey.

The Cando was in command of Capt. A. Wolf. The boat carried twenty-five passengers and had a crew of twenty men on board.

R. M. Brass left Saturday for New York, presumably to close a deal for the sale of some valuable timber and coal land in Martin county. It is rumored that the deal is practically closed; whereby the Northern Coal and Coke Company will gain possession of the coal, while a number of companies including the Yellow Paper, Vassett-Nathaniel and C. C. Crane are negotiating for the timber. It is said that the sale will embrace at least a half million dollars.—Press.

Bleetsen, Ky., Jan. 12.—Fire visited the large plant of the W. M. Ritter Lumber Company, at Painters, last night, doing several hundred thousand dollars damage.

The fine large planing mill, a dozen N. and W. cars loaded with lumber, the new depot of the N. and W., and thousands of feet of lumber were destroyed.

Details are meager, as the wires were down, and it cannot be learned if the fire is under control.

This is the second big fire in the same plant in 16 days. The cause is unknown. The property is fully insured.

Jackson, Ky.—Developments following the breaking down of the Kentucky Lumber and Veneer Company's railroad bridge, mile and a half below town, disclosed a number of narrow escapes from death and destruction, as the wonder that any who went down with the train and the bridge could have survived the fall and flying debris into the freezing waters of the Kentucky river.

All are, however, still alive and it is reported that all will recover. When he broke loose from the engine and fell with the bridge a brakeman by the name of Buck Green, leaped from the front car and caught and held to the engine.

Besides the engineer and fireman there were two women, Mrs. Morgan and Miss Moran, on the engine. The latter would have leaped off as the river had not the engineer and fireman held them. The work of reconstruction has already begun.

## The Wrong Way.

### The Penalty Paid For Not Doing Business Safely.

A man in Martin county recently lost his house by fire. He had \$700 in hard earned money "deposited" in an organ. The flames beat him to the organ, and in his desperate efforts to save the money he was considerably burned. The money and organ were consumed.

Another man, Mr. Alley, down in Boyd county, loaned a board on the ceiling on one room in his home and carelessly packed away \$1,000 in paper money. When he went to get it a few months later, he found that the mice had cut it into small bits and were rolling in wealth. He lost every cent of it.

These cases show the folly and insecurity of trying to keep money at home. Yet there are many people who do it. They feel as safe as these two men did before the unexpected happened to them. Now they probably wonder why they did not deposit their money in a good bank. That is what every citizen should do and thus avoid possibility of loss.

No joy or pleasure on this earth quite equals that which comes into the home when baby arrives. Who can describe the happiness of man and woman, joined in wedlock, as they look upon the fragile, delicate mite that is blood of their blood?

And flesh of their flesh? And who can depict the hopelessness and dejection that hover about the home where the wife is incapable of becoming a mother? Burdened proceeds from some derangement of the distinctly feminine organs. Many of the common ailments known as "female troubles" cause it. Dr. Pierce's Favorite Prescription overcomes barrenness by stamping out diseases of women, and by healing and curing ulceration. It tones up the system, stops drains, and restores strength. During gestation it modifies morning sickness, gives elasticity to the overstrained parts concerned, makes the little one healthy, vigorous and good natured. Insist upon the medicine dealer giving you Dr. Pierce's Favorite Prescription when you ask for it. Substitutes are often dangerous.

Mrs. James W. Harker, of Cape May, N. J., writes: "Your medicine has done wonders for me. For years my health was very poor. I had four miscarriages, but since taking Dr. Pierce's Favorite Prescription, I have much better health, and now I have a fine healthy baby."

For one-cent stamps to cover cost of mailing only, you can get a free copy of this celebrated doctor book, the Common Sense Medical Adviser, 1000 pages, illustrated, cloth-bound, of stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

### "SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free.

Because this picture is the face of a child in the wrapper of every bottle of Emulsion you buy.

### "Nothing More to Pay"

That's what he said and further, he (Mr. Ebe Walter, of Clarksville, Del.) said this:

The fact is that a Fifteen-Year Distribution Policy, issued by The Mutual Life Insurance Company of New York is a very interesting document. A yearly dividend, increasing each year after the policy is paid up—a sum paid the estate, and options which make it almost like handling so much cash and yet keeping it for your heirs at the same time.

In writing for information about a policy of this kind state what you would like to receive in the end of limited payment period, amount you would like your beneficiary to receive in event of your death, and give your age. THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK

RICHARD A. MCCREARY, President.

Thousands of little ones die every year of croup. Most of them could have been saved by a few doses of Foley's Honey and Tar, and every family with children should keep it in the house. It contains no opiates and is safe and sure. Mrs. George H. Pickett, San Francisco, Cal., writes: "My baby had a dangerous attack of croup and we thought she would choke to death, but one dose of Foley's Honey and Tar relieved her at once. We never again needed it in the house. Sold by Louisa Drug Company."

Price 25 Cents Per Box. Manufactured exclusively by ARNETT & FULMERSON, Louisa, Ky.

Thousands of little ones die every year of croup. Most of them could have been saved by a few doses of Foley's Honey and Tar, and every family with children should keep it in the house. It contains no opiates and is safe and sure. Mrs. George H. Pickett, San Francisco, Cal., writes: "My baby had a dangerous attack of croup and we thought she would choke to death, but one dose of Foley's Honey and Tar relieved her at once. We never again needed it in the house. Sold by Louisa Drug Company."
